

Science Project: Poster Guidelines

Create a poster that represents a specific terrestrial or aquatic habitat, including its characteristics and inhabitants. Example: a pond, river, savannah, or tree top.

You should include:

1. Title of the habitat
2. Drawings or pictures of representative organisms
3. Key characteristics of the habitat
4. At least three Interesting fact about the habitat of your choice.

Deadline to present your poster will be on the Friday, 28th of November in class. No EXCUSES.
